

Bed Owner Comments

A FEW TESTIMONIALS FROM MIGUN OF GREENVILLE'S BED OWNERS!

I first heard about MIGUN over 1 ½ years ago in a newspaper insert about medical services and options. I first tried out a MIGUN thermal massage bed in Asheville and I knew from my first experience that someday, somehow I had to own my very own MIGUN bed. Finally, in November I made the decision to take control of my own medical situation and stop adding pills to ease my numerous aches, pains and conditions. I purchased a Migun and now have my very own "relaxation central" complete with music, candles and a water feature.

So did I make a good decision? You bet! I have numerous medical conditions which doctors continue to treat by just adding another pill. My goal is to decrease my current medications and not have to take any additional ones.

After one month of daily MIGUN treatments, I have gone off one of my medications for IBS. But more importantly, I do not have to deal with the pain, discomfort, and stress related to IBS on a daily basis.

I have had chronic back pain for the past 3 years due to a very ugly fall at work which was recently exasperated by an automobile accident. I have gone through numerous physical therapy treatments, medications, x-rays, scans, and evaluations. In the end, the doctors can not identify what is causing the pain, so therefore, it doesn't exist...to them maybe, but not to me! After a month of daily MIGUN treatments, my back is much improved (80-90%). Again, it is still there, but I am not dealing with the pain and having to use pain medications on a daily basis.

I have dealt with **Fibromyalgia** for 15+ years. It waxes and wanes but as all who have it know, it impacts how you feel on a daily basis. With my regular MIGUN treatments, I can tell a major improvement in how I feel overall...and it is definitely a positive improvement!

I have a family history of high blood pressure but personally have never had a problem until the past year. I am very hopeful that with regular MIGUN treatments, I will not have to on medication for high blood pressure but will be able to break my family pattern.

I absolutely LOVE my MIGUN and am encouraging others to check it out for themselves. Anyone suffering with chronic pain or with stress related conditions should definitely give it a try. I am probably a Type AAA personality instead of simply a Type A. I find it very difficult to relax even when I try, but with MIGUN, my mind and body let go and probably for the first time in my life, I feel truly relaxed.

Considering all the money I have spent on pain medication, therapy and doctors visits, the money spent on my MIGUN bed is absolutely the best money I've ever spent for my health and well-being. Thank You, thank you to those responsible for bringing MIGUN to this area and giving us another option to "let's try this new pill!"

From a totally "Migunized" Paulette in Landrum

Being a retired physician assistant solely trained in Western Medicine, I was skeptical!! Now, if I were still practicing medicine, I would eagerly encourage my patients to try the bed. Those with osteoarthritis or **fibromyalgia** will especially benefit – I know because I myself have both conditions and the reduction in pain, as well as a general sense of "balance" has been spectacular!!
